The Story of the Butterfly

Do you know what a cocoon is? It is a sort of protective covering of silky threads that the larvae of moths and other insects make for themselves before they grow into adults. Now let us read a story.

A man found a cocoon of a butterfly.

One day a small opening appeared in it. He sat and watched the butterfly for several hours as it struggled to squeeze its body through the tiny hole. Then it stopped, as if it couldn't go further.

So the man decided to help the butterfly.

He took a pair of scissors and snipped off the remaining bits of the cocoon. The butterfly emerged easily but it had a swollen body and shrivelled wings. The man continued to watch it, expecting that any minute the wings would enlarge and expand enough to support the body.

Neither happened!

In fact the butterfly spent the rest of its life crawling around. It was never able to fly.

What the man in his kindness and haste did not understand was that the restricting cocoon and the struggle required by the butterfly to get through the opening was a way of forcing the fluid from the body into the wings so that it would be ready for flight once that was achieved.

Actually when a butterfly first comes out, its wings are damp. The wings are also very soft. They are folded against its body. The butterfly is also very tired. So it rests. When the butterfly is ready to fly, it starts to pump blood into its wings so that they get working and start flapping. A

butterfly learns fast. And soon it flies from flower to flower in search of food.

Now what did you learn from this? Sometimes struggles are exactly what we need in our lives. Going through life with no obstacles would cripple us. We would not be as strong as we could have been and we would never be able to fly. In trying to reduce the pain of the butterfly, the man left it crippled for life.

तितली की कहानी

क्या आप जानते हैं कि एक कोकून क्या है? यह रेशमी धागों का एक प्रकार का रक्षात्मक आवरण है जिसे पतंगों और अन्य कीड़ों के लार्वा स्वयं के लिए वयस्क होने के पूर्व बनाते हैं। अब हम एक कहानी पढ़ते हैं।

एक आदमी को तितली का एक कोकून मिला।

एक दिन इसमें एक छोटा सा छिद्र दिखाई दिया। वह कई घंटों तक बैठकर तितली को देखता रहा क्योंकि यह छोटे छेद के माध्यम से अपने शरीर से बाहर निकलने के लिए संघर्ष कर रही थी। फिर यह बंद हो गया, क्योंकि यह आगे नहीं निकल सकी। तो आदमी ने तितली की मदद करने का फैसला किया।

उसने कैंची ली और कोकून के शेष बिट्स को काट दिया। तितली आसानी से बड़ी हुई किंतु इसका शरीर फूला हुआ और पंख मुरझाये हुए थे। वह आदमी उसे लगातार देखता रहा, उम्मीद कर रहा था कि उसके पंखों का फैलाव होगा और शरीर का समर्थन करने के लिए पर्याप्त विस्तार होगा।
कुछ नहीं हुआ!

वास्तव में तितली ने अपना बाकी जीवन चारों ओर रेंगते हुए बिताया। यह कभी उड़ने में सक्षम नहीं हुई।

आदमी को अपनी जल्दबाजी और दया के आगे कुछ समझ नहीं आया। कोकून से तितली बनने की प्रक्रिया में, यह जरूरी है कि उस छोटे से छेद में से ही निकले, ताकि उसके पंखों को आवश्यक तरलता मिल सके और वो मजबूत बन सके और यह प्रक्रिया पूरी होने के बाद ऊँची उड़ान भर सकें।

दरअसल जब एक तितली पहली बार बाहर आती है, तो उसके पंख गीले होते हैं। पंख भी बहुत नरम होता है। वे इसके शरीर के विरुद्ध लिपटे होते हैं। तितली भी बहुत थक जाती है। इसलिए आराम करती है। जब तितली उड़ने के लिए तैयार होती है, तो यह अपने पंखों में रक्त पंप करना शुरू कर देती है ताकि वे काम कर सकें और फ्लैप करना शुरू कर सकें। एक तितली तेजी से सीखती है। और जल्द ही यह भोजन की तलाश में एक फूल से दूसरे फूल तक उड़ कर जाती है।

अब आप इससे क्या सीखते हैं? कभी-कभी हमें जीवन में उतना ही संघर्ष करना चाहिए जितना कि हमें जरूरत हो। बिना किसी बाधा के जीवन जीना हमें अपंग बना देगा। हम उतने मजबूत नहीं होंगे जितना हम हो सकते थे और हम कभी उड़ने में सक्षम नहीं होंगे। तितली के दर्द को कम करने की कोशिश में, आदमी ने उसे हमेशा के लिए अपंग कर दिया।

Self love is important to living well. It influences the image you project at work and how you get by with the problems in your life. It is so important to your goodness that here you will know how to bring more of it into your life. Self love is not simply a way of feeling good. It is a thing of appreciation for oneself that grows from actions and supports your spiritual growth. It grows through actions that mature you. When you act in ways that increases self love, you begin to accept your weaknesses as well as strengths. Here are seven Step that you can follow for Self-Love. Become mindful. People who have more self love knows what they think, feel and want. They are mindful of who they are and act according this knowledge, rather than on what others think or want from them. Work on what you need rather than what you want. You love yourself when you can convert yourself from something that feels good and exciting to what you need to stay strong and moving forward in your life. Practice good self care. You will love yourself more, when you take better care of your basic needs. People high in self love treat themselves daily through healthy activities like sound nutrition, proper sleep, intimacy and healthy social interactions. Protect yourself. Bring the right people into your life. It means the type of friends who take pleasure in your pain and loss rather than in your happiness and success. In that case, it is suggested that you get rid of them as soon as possible. There is not enough time in your life to waste on people who want to take away the happiness from your face. Forgive yourself. Humans can be very

hard on themselves. The responsibility for your actions is punishing yourself too much for mistakes in learning and growing. You have to accept your the fact that you are not perfect before you can truly love yourself. Practice being less hard on yourself when you make a mistake. Remember, there are no failures, if you have learned and grown from your mistakes there are only lessons learned. Live intentionally. You will accept and love yourself more no matter what is happening in your life. When you live with purpose and design. Your purpose does not have to be crystal clear to you. If your intention is to live a meaningful and healthy life, you will make decisions that support this intention and feel good about yourself. You need to establish your living intentions, to do this. If you choose just one or two of these self love actions then you will begin to accept and love yourself more. Just imagine how much you will appreciate yourself when you exercise these seven steps to self love. It is true that you can only love a person as much as you love yourself. If you exercise all of the actions of self love that is described here then you will allow and encourage others to express themselves in the same way.
