Read the following passage and answer the questions that follow.

Climbing Everest

On May 29, 1953, Tenzing Norgay and Edmund Hillary created history. They had scaled Mount Everest, the highest peak in the world. From the peak, they looked at the scene below. It looked grand! Distant peaks covered with white snow looked simply charming.

After spending fifteen minutes they decided to return.

The return journey was altogether different from the upward journey. They had gone as ordinary climbers, but were now heroes. The whole world was waiting to greet them.

For Tenzing the difference was going to be much greater.

He had struggled hard to see this day.

As a young boy he lived with his family in Solo Khumbu, a small village in Nepal. He had to help his father in the farm. But he was least interested in this work. His heart lay somewhere else. He wanted to climb the Himalayas. One day he ran away and settled in Darjeeling. It was from here that climbers used to go up the mountain peaks.

His first big breakthrough came in 1935 when he accompanied Frank Smythe's team as a porter. Tenzing was excited. But the party could not make it. After scaling 23,000 feet most climbers felt so tired that Smythe had to abandon the expedition.

In 1953 he accompanied the expedition led by John Hunt. The team successfully reached the base camp before the last stage. The last part of the climb was going to be treacherous. Hunt selected four persons for the final ascent. Evans and Tom would go first. Hillary and Tenzing would make the second attempt.

Tom and Evans returned unsuccessful because the weather turned foul. So next day Hillary and Tenzing had to try their luck. They were lucky. The weather was pleasant. The climb was very steep. One slip and they could have a fatal fall. But the brave climbers kept moving.

At one stage they could not see anything. They were confused. But then they realised that they were standing on top of the world. They made a dream come true.

निम्नलिखित गद्यांश पढ़िए और प्रश्नों के उत्तर दीजिए। एवरेस्ट की चढ़ाई

29 मई, 1953 को, तेंजिंग नोर्ग और एडमंड हिलेरी ने इतिहास रच दिया। उन्होंने दुनिया में सबसे ऊँची चोटी माउंट एवरेस्ट पर चढ़ाई की। चोटी से, उन्होंने नीचे के दृश्य को देखा। यह भव्य लग रहा था। सफेद बर्फ से ढँकी दूरस्थ चोटियाँ बहुत आकर्षक लग रहीं थीं। पंद्रह मिनट बिताने के बाद उन्होंने वापस लौटने का निर्णय किया। वापसी यात्रा ऊपर जाने की यात्रा से पूरी तरह अलग थी। वे साधारण पर्वतारोही के रूप में गए थे, लेकिन अब नायक थे। पूरी दुनिया उन्हें बधाई देने की प्रतीक्षा कर रही थी।

तेंजिंग के लिए अंतर बहुत अधिक होने जा रहा था। उन्होंने इस दिन को देखने के लिए कड़ी मेहनत की थी।

एक युवा लड़के के रूप में वे नेपाल में एक छोटे से गाँव सोलो खुंबू में अपने परिवार के साथ रहते थे। उन्हें खेत में अपने पिता की मदद करनी पड़ती थी। लेकिन वे इस काम में बहुत कम रुचि रखते थे। उनका दिल कहीं और था। वे हिमालय पर चढ़ना चाहते थे। एक दिन वे भाग गए और दार्जिलिंग में बस गए। यहाँ से पर्वतारोही पर्वत शिखरों तक चढ़ते थे।

उन्हें पहली बड़ी सफलता 1935 में मिली जब उन्होंने फ्रैंक स्माइथ की टीम का पोर्टर के रूप में साथ दिया। तेंजिंग उत्साहित थे। लेकिन पार्टी इसे पूरा नहीं कर सकी। 23,000 फीट चढ़ने के बाद अधिकांश पर्वतारोही इतने थक गए कि स्माइथ को अभियान छोड़ना पड़ा।

1953 में वे जॉन हंट के नेतृत्व वाले अभियान के साथ जुड़े। टीम अंतिम चरण से पहले आधार शिविर तक सफलतापूर्वक पहुँची। चढ़ाई का आखिरी हिस्सा संकटमय होने वाला था। हंट ने अंतिम चढ़ाई के लिए चार लोगों का चयन किया। इवांस और टॉम पहले जानेवाले थे। हिलेरी और तेंजिंग दूसरा प्रयास करनेवाले थे। टॉम और इवांस असफल रहे क्योंकि मौसम खराब हो गया।

इसलिए अगले दिन हिलेरी और तेंजिंग को अपनी किस्मत आजमाने का प्रयास करना था। वे भाग्यशाली थे। मौसम सुखद था। चढ़ाई बहुत तीव्र ढलान वाली थी। एक फिसलन और उन का गिरना घातक हो सकता था। लेकिन बहादुर पर्वतारोही चलते रहे।

एक स्तर पर वे कुछ भी नहीं देख सके। वे उलझन में थे। लेकिन फिर उन्होंने अनुभव किया कि वे दुनिया के शीर्ष पर खड़े थे। उन्होंने एक सपना सच किया। Question Number: 53 Question Id: 755905868 Question Type: MCQ Option Shuffling: Yes Display Question Number: Yes

Single Line Question Option : No Option Orientation : Vertical

Correct Marks: 1 Wrong Marks: 0

1935 का अभियान असफल रहने का कारण क्या था?

Options:

- 🔒 🚜 सभी पर्वतारोहियों का खराब स्वास्थ्य
- ्र 🚜 खराब मौसम और स्माइथ की अगुवाई करने में असमर्थता।
- पर्वतारोही अभियान को जारी रखने के लिए बहुत थके हुए है
- 🗸 😹 स्माइथ अस्वस्थ था और उसने अभियान को छोड़ दिया।

The capability of an individual to translate knowledge into action is known as skill. It is not necessarily inborn. It can be developed through practice and through relating learning to one's own personal experience and background. Skills of manager-Technical skills. Technical skills refer to the ability to carry out a specific activity, which may involve the use of tools, equipment, procedures, and knowledge of a specialized field. It is concerned with the ways of doing the things. Technical skills are most important for the first level managers as much of their time is devoted in training and clarifying the doubts of subordinates. Effective supervision and coordination depends on the technical skill possessed by the lower level manager. Any supervisor without a sound knowledge of technical skills cannot be an effective supervisor. Human Skills, Human skills or interpersonal skills are primarily concerned with persons. It is the ability of a person to work well with others in a group. It is concerned with the understanding and awareness of own attitudes, assumptions, and beliefs. As the viewpoints and feelings are different from each other, these skills involve understanding why people behave as they do. Conceptual Skills. It is the understanding of various components of an organization that relate to one another and associate the organization with external environment. It involves the ability to understand how the various parts and functions of an organization mesh together and how changes in any one of these may affect all the others. A high degree of conceptual skill helps in analyzing the environment and in identifying the opportunities and threats. Management job always requires all the three skills, but in different proportions depending upon the level of management. Technical skills and human skills are always in great demand at the lower level of management. The need for conceptual skill is greatest at the top level of management. Further, management development programmes help in acquiring and developing different types of managerial skills and knowledge, such as the ons given below. Decision-making skills. The main job of a manager is to make both strategic and routine decisions. His ability to take effective decisions can be enhanced by developing decision–making skills through various techniques, for example case study method. This is a training method that employs simulated business problems for trainees to solve. The individual is expected to study the information given in the case and make decisions based on the situation. If the student is provided a case involving an actual company, he is expected to research the firm to gain a better appreciation of its financial condition and corporate culture. Typically, the case method is used in the class room with an instructor who serves as a facilitator.
