Speech by Hillary Rodham Clinton, at the Plenary Session of the Fourth World Conference on Women, conducted by the UN, September 5 1995 at Beijing

I would like to thank the Secretary General for inviting me to be part of this important United Nations Conference on Women. This is truly a celebration, a celebration of the contributions women make in every aspect of life — in the home, on the job, in the community as mothers, wives, sisters, daughters, learners, workers, citizens, and leaders.

It is also a coming together much the way women come together everyday in every country. We come together in fields and factories, in village markets and supermarkets, in living rooms and board rooms. Whether it is while playing with our children in the park, or washing clothes in a river, or taking a break at the office water cooler, we come together and talk about our aspirations and concern. And time and again, our talk turns to our children and our families. However different we may appear, there is far more that unites us than divides us. We share a common future, and we are here to find common ground so that we may help bring new dignity and respect to women and girls all over the world, and in so doing bring new strength and stability to families as well.

Those of us who have the opportunity to be here have the responsibility to speak for those who could not. As an American, I want to speak for those women in my own country, women who are raising children on minimum wage, women who can't afford health-care or child-care, women whose lives are threatened by violence, including violence in their own homes.

We need to understand there is no one formula for how women should lead their lives. That is why we must respect the choices that each woman makes for herself and her family. Every woman deserves the chance to realize her god-given potential. But we must recognize that women will never gain full dignity until their human rights are respected and protected.

बीजिंग में 5 सितंबर 1995 को संयुक्त राष्ट्र द्वारा आयोजित फोर्थ वर्ल्ड कॉन्फ्रेंस ऑन वीमेन के पूर्ण सत्र में हिलेरी रोडमह क्लिंटन की वक्तृता

मैं इस महत्वपूर्ण यूनाइटेड नेशन कॉन्फेंस ऑन वीमेन में भाग लेने के लिए मुझेआमंत्रित करने के लिए महासचिव का शुक्रिया अदा करना चाहती हूं। यह वास्तव में एक उत्सव है, महिलाओं के जीवन के हर पहलू में महिलाओं के योगदान के उत्सव का जश्न --- घर में, नौकरी पर, समुदाय में माताओं, पत्नियों, बहनों, बेटियों, शिक्षार्थियों, श्रमिकों, नागरिकों और नेताओं के रूप में।

वे हर देश की महिलाओं की तरह हर रोज एक साथ आती हैं। हम

लिविंग रूम और बोर्ड रूम में, गांव के बाजारों और सुपरमार्केटों में, फिल्ड और कारखानों में एक साथ आते हैं। चाहे पार्क में हमारे बच्चों के साथ खेलना, या नदी में कपडे धोना, या ऑफिस में बेक लेना, हम एक साथ आते हैं और हमारी महत्वाकांक्षा और समस्या के बारे में बात करते हैं। और बार-बार, हमारी बात हमारे बच्चों और हमारे परिवारों के तरफ मुझ्ती है। हालांकि हम अलग-अलग दिखाई दे सकते हैं, हमें एकजुट करने वाली चीज़ें हमें विभाजित करने वालों से कई अधिक है। हम एक समान भविष्य साझा करते हैं, और हम यहां हमारी सामान्य समस्यायों का हल ढूंढने के लिए आए हैं ताकि हम पूरी दुनिया में महिलाओं और लड़कियों के प्रति नई गरिमा और सम्मान

हम में से जिनको यहाँ आने का अवसर मिला है, उनकी यह जिम्मेदारी बनती है की वह उन महिलाओं के लिए बोले जो आज यहाँ उपस्थित नहीं है। एक अमेरिकी के रूप में, मैं अपने देश के उन महिलाओं की बात करना चाहती हूं, जो महिलाएं न्यूनतम मजदूरी पर बच्चों का पालन-पोषण कर रही हैं, वे महिलाएं जो स्वास्थ्य देखभाल या शिशु देखभाल के खर्चे को वहन नहीं कर सकती हैं, जिनकी जिंदगी हिंसा के साथ-साथ घरेलू हिंसा से ग्रस्त है।

लाने में मदद कर सकें. और ऐसा करके परिवारों को नई ताकत और

स्थिरता भी मिल सके।

हमें यह समझने की जरूरत है कि महिलाओं को किस प्रकार जीवन व्यतीत करना चाहिए, इसके लिए कोई मूलमंत्र नहीं है। यही कारण है कि हमें उन निर्णयों का सम्मान करना चाहिए जो प्रत्येक महिला अपने और अपने परिवार के लिए करती हैं। हर महिला को भगवान द्वारा दी गई क्षमता का उपयोग करने का मौका मिलना चाहिए। लेकिन हमें यह समझना चाहिए कि जब तक उनके मानवाधिकारों का सम्मान और संरक्षण नहीं किया जाता है तब तक महिलाओं को पूर्ण गरिमा कभी नहीं मिलेगी। Question Number: 53 Question Id: 2012981716 Question Type: MCQ Option Shuffling: Yes Display Question Number: Yes

The biggest problem of global warming is undoubtedly a huge water depreciation on earth. This is why it is very important to understand the phrase that says conserve water save earth. Pure water is the prime source of all necessities required for a healthy life. Although major proportion of Earth is covered by water, yet only one percentage of water is ideal for drinking. Hence, every individual must look for solutions to conserve water. Better and less use of water is the best way to prevent the worst situation of drought on earth. Using just simple techniques, we can preserve water and save life on earth. We can save it on every second of our life. A small step can add hundreds of gallons in water savings. Here are some points we need to focus in our daily life. Maintain a little precaution during routine activities, like turn off the tap while brushing, washing hand and shaving. This can save a huge quantity of approximately one hundred sixty gallon of water per month. Use of bucket instead of taking shower will also do the needful regarding saving water. Watering plants in morning and evening time instead of afternoon is always the better solution to save water. Planting trees in spring season can also be added to the solution. Instead of washing the car with pipe, it is always ideal to use a bucket for optimum water utilization. Always use the washing machine and dishwasher when they are fully loaded. It will always help you save huge amount of water. Apply the correct process of water recycling in your home. For example collect the rainwater and recycle it in other household activities. One can recycle the water ejecting from water purifying systems installed at home. Conserving water is something that makes nature and our future safe and secure. We all know that day by day the level of water on earth is declining. It is basically due to this our nature is badly suffering. It should be better to learn and apply how to conserve water and keep its purity for the healthy life of our future generation. After seeing the current situation of water available on the planet, each and every single drop of water is needed to be saved now. We need to understand that water is the first need for anyone and conserving water is the hot topic today. It simply means making use of water in an appropriate and judicious manner. Since our lives depend entirely on water, it is our duty to think about water conservation and how we can contribute to it. So, we must act as responsible children of the mother Earth and conserve water.
