Progress in life depends a good deal on crossing one threshold after another. Some time ago a man watched his little nephew try to write his name. It was hard work, very hard work. The little boy had arrived at an effort threshold. Today, he writes his name with comparative ease. No new threshold confronts him. This is the way with all of us. As soon as we cross one threshold, as soon as we conquer one difficulty, a new difficulty appears or should appear. People make the mistake of steering clear of thresholds. Anything that requires genuine thinking and use of energy they avoid. They prefer to stay in a rut where thresholds are not met. Probably, they have been at their job for number of years. Things are easy for them. They make no efforts to seek out new obstacles to overcome. Real progress stops under such circumstances. Some middle aged and elderly people greatly enrich their lives by continuing to cross the thresholds. One man went into an entirely new business when he was past middle life and made a success of it. De Morgan didn't start to write novel until he was past sixty. Psychologists have discovered that man can continue to learn throughout life. And it is undoubtedly better to try and fail then not to try at all. There one can be placed in the category of the Swiss mountaineer of whom it was said, "He died climbing." Accept the challenge. Determine to cross this threshold as you have crossed numerous thresholds in your past life. In the words of the poet, do not rest but strive to pass from dream to grander dreams.

जीवन में ज्यादातर सफलता प्राप्त करना इस बात पर निभेर करता है कि हम एक के बाद एक कठिनाइयों को पार कर पाएं। कुछ समय पहले एक व्यक्ति ने अपने छोटे से भतीजे को अपना नाम लिखने का प्रयास करते हुए देखा। यह एक मुश्किल काम था - बहुत ही कठिन कार्य। वह छोटा सा लड़का अपने प्रयासों की चरम सीमा तक पहुँच चुका था। आज वह अपना नाम पहले की तुलना में ज्यादा आसानी से लिख पाता है। अब कोई नयी कठिनाई उसके आड़े नहीं आती। यह हम सब के साथ भी ऐसा ही होता है। जैसे ही हम एक कठिनाई को पार कर लेते हैं, जैसे ही हम एक कठिनाई पर विजय पा लेते है, हमारे सामने एक नई कठिनाई आ जाती है या आनी चाहिए। लोग बिना कठिनाईयों के मार्ग पर आगे बढ़ने की बजाय उससे बच निकलने की गलती करते हैं। वे हर उस चीज़ से दूर भागते हैं जिसमे ताकत का उपयोग हो या जिसमें सही तरह से विचार करने की आवश्यकता हो। वे उस लकीर के अंदर रहना चहते है जहां उन्हें किसी भी प्रकार की कठिनाई का सामना ना करना पड़े। संभवतः, सालों से वे अपने इसी कार्य से जुड़े हुए हैं और उनके लिए चीजें आसान रही हैं। पर वे किसी भी नई कठिनाई को जानकर उसपर विजय पाने की कोशिश नहीं करते। इन परिस्तिथियों में असली प्रगति रुक जाती है। कुछ अधेड़ उम्र के लोग और कुछ बुजुर्ग कठिनाइयों को पार करते हए अपनी जिंदगी को बहुत ही समृद्ध बना लेते हैं। एक व्यक्ति ने अपना नया व्यपार तब श्रू किया जब वह अपना आधा जीवन व्यतीत कर चुका था और उसे उस कार्य में सफलता भी मिली। डी मॉर्गन ने 60 वर्ष की उम्र के बाद उपन्यास लिखना श्रू किया। मनोवैज्ञानिकों के अनुसार एक व्यक्ति जीवन भर सीख सकता है। और कोशिश करके असफल हो जाना कोशिश न करने से तो बेहतर है। इस प्रकार ऐसे व्यक्ति को स्विस पर्वतारोही की श्रेणी में रखा जा सकता है जिसके लिये कहा गया है - "वह चढ़ते चढ़ते मर गया"। चुनौती को स्वीकार करो। संकल्प करो और इस कठिनाई को भी ठीक उसी तरह पार करो जैसे तुमने अपने जीवन की कठिनाइयों को पहले पार किया है। एक कवि के शब्दों में कहा जाए तो - मत रुको, एक सपने से दूसरे बेहतर सपने की ओर बढ़ने का प्रयास जारी रखो।

The basic purpose of the Mission is to put in place a dedicated and sensitive support structure from the state level to the sub-district level, which will focus on the poor & marginalized, build and sustain their organizations at different levels. This will provide the poor & marginalized with a platform for collective action based on self-help, thrift and mutual cooperation. The programme will also build linkages with mainstream institutions, including banks, resource institutions and Government departments to address various dimensions of poverty. For effective implementation of the mission, an independent society has been created at the state level and has been registered under the Societies Registration Act 1860. The project with a funding of 50 million Euros shall be implemented in a phased manner, initially piloting approaches and activities in select districts and identifying what works and what does not. The successful approaches will be scaled up in a phased manner to all districts. For the initial launching of the mission a total of ten districts have been identified as the pilot. These districts have been identified on the basis of their geographical location, ranking on the HDI index and performance on other key social indicators. The state has a long history of people's movement's, aggregation for rights or most importantly for community management of important livelihood resources such as water. Broadly speaking, people's efforts at collectivization for livelihood promotion can be grouped into two distinct categories. The first being formal which includes the cooperative sector and includes entities that are registered under a state law, the second category consists of the emergence of thrift and credit based collectives which are of more recent origin. One of the major distinct features of these institutions is the involvement of women. It is almost as if the self-help group movement is of, by and for the women. A third possible category may consist of aggregation platforms/collectives such as Mahila Mandals, Development Networks/Vikas Manch headed by the civil society. These institutions have played an important role in community mobilization around important issues that affect their rights and entitlements. However, from the point of view of livelihood promotion we intend to look at the first two categories viz, the formal cooperative sector and the self-help sector.
