Jill (Awkwardly) : Er-Thank you, Aunt Jane. It's very nice of you.

Aunt Jane : There! Now I must be going.

Jack : I'll see you to the bus, anyway.

Jill : Good bye Aunt Jane----- and thanks so much for the

Aunt Jane : Good bye, my dear.

(She and Jack go out. Jill looks at the cheque and exclaims "Ten Pounds!" then she hurries to the table, addresses an envelope, endorses the cheque and slips it inside with a bill which she takes from her bag, and seals the envelope. Jack : Well, that's all right. Who have you sent it to?

Jill : Dr Martin.

Jack : Dr Martin! What on earth possessed you to do that?

The power of concentration manifests as focused attention and as a one pointed mind. When you focus your mind on something, you conserve your energies and do not dissipate them on irrelevant thoughts. This is why, developing concentration is vital for anyone, who is aspiring to be more efficient in life. Without it, your efforts get scattered, but with it, you can accomplish great things. Concentration has many uses and benefits. It assists in studying, enables faster comprehension, improves the memory and helps in focusing on a task. Therefore, it can be rightly referred to as a powerful tool that helps you use creative visualization and develop psychic powers. When this ability is strong, the mind obeys you more readily and does not engage in futile or negative thoughts. This ability plays an important role in meditation, gaining mental mastery, and attaining peace of mind. A person, who does not concentrate or meditate often, finds himself irritated, restless and annoyed. Such a person is often found to be occupied with restless thoughts claim his attention constantly, thereby wasting his time and energy on useless matters. These thoughts actually rule their life. They become so used to such conditions that they regard it as natural. However, it is one of the most dangerous situations that a human being can encounter in his life. So, develop this power. You only need to train and exercise it. Forget all your excuses about not having the time or being too busy. Do not say that the circumstances are not appropriate, or that you cannot find a quiet place to exercise. With a little planning, desire and motivation, you can always find the time to exercise each day, no matter how busy you are. Just make sure that you do not inner resistance to concentration. For example, telling a child often, that he or she is not concentrating well enough, creates a subconscious aversion to concentration and study. La Tomatina is a food fight festival held on the last Wednesday of August each year in the town of Bunol near to Valencia in Spain. Thousands upon thousands of people make their way from all corners of the world to fight in this Worlds Biggest Food Fight, where more than one hundred metric tons of over-ripe tomatoes are thrown in the streets. Since 2013 official ticketing has been in place, limiting the number of participants to just 20,000 lucky people. There is limited accommodation for people who come to La Tomatina. So, many people take the easier option of staying in nearby Valencia just 38km to Bunol by bus or train. In preparation for the dirty mess that will ensue shopkeepers use huge plastic covers on their storefronts in order to protect them from the carnage. At around 11am, many trucks haul the bounty of tomatoes into the centre of the town. Plaza del Pueblo. The tomatoes come from Extremadura, where they are less expensive. Technically the festival does not begin until one brave soul has climbed to the top of a two-story high, greased-up wooden pole and reached the coveted ham at the top. In practice this process takes a long time and the festival starts despite no one reaching the meaty prize. The signal for the beginning of the fight is firing of water cannons, and the chaos begins. Once it begins, the battle is generally every man for himself. After an one hour, the fighting ends. At this point, no more tomatoes can be thrown. The cleaning process involves the use of fire trucks to spray down the streets, with water provided from a Roman aqueduct. The authorities seem more concerned with cleaning the town than cleaning the visitors. So, some people find water at the Bunol River to wash themselves, although some kind residents will hose passers-by down. Once the tomato pulp is flushed, the ground is cleaned due to the acidity of the tomato. The Rules of La Tomatina. Do not bring bottles or hard objects as they can cause accidents and hurt other participants Do not rip other people's T-shirts You must squash the tomatoes before throwing them as this reduces the impact Ensure you keep a safe distance from the lorries As soon as you hear the second shot, you must stop throwing tomatoes Useful Advice. Wear closed shoes that you do not mind throwing away afterwards. If you wear flip-flops, you may get hurt, or you could lose them easily during the battle.
