Read the following passage carefully and answer the questions that follow:

"Why don't you say this to the people who come to you for help and advice?" I asked my father. He put his hands on my shoulders and looked straight into my eyes. For quite some time he said nothing, as if he was judging my capacity to comprehend his words. Then he answered in a low, deep voice. His answer filled me with a strange energy and enthusiasm: Whenever human beings find themselves alone, as a natural reaction, they start looking for company. Whenever they are in trouble, they look for someone to help them. Whenever they reach an impasse, they look to someone to show them the way out. Every recurrent anguish, longing, and desire finds its own special helper. For the people who come to me in distress, I am but a go-between in their effort to propitiate demonic forces with prayers and offerings. This is not a correct approach at all and should never be followed. One must understand the difference between a fear-ridden vision of destiny and the vision that enables us to seek the enemy of fulfilment within ourselves.

I have throughout my life tried to emulate my father in my own world of science and technology. I have endeavoured to understand the fundamental truths revealed to me by my father, and feel convinced that there exists a divine power that can lift one up from confusion, misery, melancholy and failure, and guide one to one's true place. And once an individual severs his emotional and physical bondage, he is on the road to freedom, happiness and peace of mind.

दिए हुए गद्यांश को ध्यानपूर्वक पढ़े एवं निम्न प्रश्नों के उत्तर दें।

'आप उन लोगों को यह बात क्यों नहीं बताते जो आपके पास मदद और सलाह माँगने के लिए आते हैं ?' मैंने पिताजी से पूछा। उन्होंने अपने हाथ मेरे कंधों पर रखे और मेरी आँखों में देखा। कुछ क्षण वे चूप रहे, जैसे वे मेरी समझ की क्षमता जाँच रहे हों। फिर धीमे और गहरे स्वर में उन्होंने उत्तर दिया। पिताजी के इस जवाब ने मेरे भीतर नई ऊर्जा और अपरिमित उत्साह भर दिया। जब कभी इनसान अपने को अकेला पाता है तो उसे एक साथी की तलाश होती है, जो एक स्वाभाविक क्रिया है। जब इनसान संकट मे होता है तो उसे किसी की मदद की जरूरत होती है। जब वह अपने को किसी गतिरोध में फँसा पाता है तो उसे चाहिए होता है ऐसा साथी जो बाहर निकलने का रास्ता दिखा सके। बारबार होने -वाली यह पीड़ा का समाधान करने वाला कोईकोई मिल ही जाता है। जो लोग -न-अपने संकट की घड़ियों में मेरे पास आते हैं, मैं उनके लिए अपनी प्रार्थनाओं के जरिए ईश्वरीय शक्तियों से संबंध स्थापित करने का माध्यम बन जाता हूँ। हालाँकि हर जगह, हर बार यह सही नहीं होता और न ही कभी ऐसा होना चाहिए।' हमें भाग्य के भयभीत नज़रिए एवं अपने भीतर पल रहे शत्रु के विनाश हेतु; भाग्य के नज़रिए के बीच का फर्क समझना होगा मैंने अपनी विज्ञान एवं प्रौद्योगिकी की सारी जिंदगी में पिताजी की बातों का

मैंने अपनी विज्ञान एवं प्रौद्योगिकी की सारी जिंदगी में पिताजी की बातों का अनुसरण करने की कोशिश की है। मैंने उन बुनियादी सत्यों को समझने का भरसक प्रयास किया है, जिन्हें पिताजी ने मेरे सामने रखा और मुझे इस संतुष्टि का आभास हुआ कि ऐसी कोई दैवी शक्ति जरूर है जो हमें भम, दुःखों, विषाद और असफलता से छुटकारा दिलाती है तथा सही रास्ता दिखाती है। जब एक व्यक्ति अपनी भौतिक एवं भावनात्मक बन्धनों से मुक्त होता है, वह मुक्ति ख़ुशी, हर्ष एवं मानसिक शांति को प्राप्त करने के पथ पर अग्रसर हो जाता है।

Should the government defer fiscal consolidation further or stick to its schedule and compress the fiscal deficit to 3.5 percent of GDP in the forthcoming Budget. Even the framing of the question in this manner makes assumptions that do not hold in the economy at present. 'Fiscal consolidation' comes across as a virtue. because its absence is normally associated with macroeconomic imbalance. But the current conditions are not normal. The world economy is in torpor. India's internal investment story is not even sound and fury, if you leave aside some e-commerce firms. Credit grows at a snail's pace. Spare capacity exists in most consumer goods sectors, obviating investment. Infrastructure investment is hostage to debt-crippled firms. The state sector has to act to boost investment. That is the basic macroeconomic imperative. Why is a fiscal deficit not desirable in normal times? Because it makes a demand on private sector savings that competes with the private sector's own demand to finance its investment, leading to excess demand that spills over as inflation and a wider current account deficit. In a situation in which the private sector's own investment demand is tepid to cold, there is little danger of public borrowings competing with private borrowings for the same quantum of private savings. On the other hand, if state sector investment generates new demand, it could crowd in fresh private investment to meet that demand. In other words, a fiscal deficit that boosts investment at a time when the private sector is chary of investing is a virtue, not a sin. This is not to say that the government should not try harder to cut back on wasteful subsidies, by employing direct benefit transfer wherever possible, or to raise additional resources by widening the tax base and administering taxes better. Nor should any effort be spared to get additional chunks of surplus global savings into the National Infrastructure Investment Fund that would invest in India's infrastructure. India cannot allow rating agencies to dictate its policy priorities that is all. Rising inequality is potentially damaging for society. Policies aimed at reducing inequalities, particularly of the structural kind that transmit inequality across generations, are called for. However, there are two redeeming features to the process of growth that has produced such inequality. Those amassing wealth in the developed world are also voluntarily spending fortunes on philanthropy in areas once considered the domain exclusively of governments, such as healthcare and primary education.
