Correct: 1 Wrong: 0

Which of the following coordinates the operations of the hardware for execution of data and instructions?

Options:

- 1 * ALU
- Input device
- 3. Control Unit
- Output device

Question Number: 1 Question Id: 9735971162 Question Type: MCQ Option Shuffling: Yes Display Question Number: Yes Single Line Question Option: No Option Orientation: Vertical

Correct: 1 Wrong: 0

निम्नलिखित में से कौन डेटा और निर्देशों के कार्यान्वयन हेत् हार्डवेयर के संचालन का निर्देशन करता है?

Options:

- एएलयू

- 4. 🗱 आउटपुट डिवाइस

Question Number: 2 Question Id: 9735971163 Question Type: MCQ Option Shuffling: Yes Display Question Number: Yes Single Line Question Option: No Option Orientation: Vertical

Correct: 1 Wrong: 0

Which of the following generally has highest processing power and number of users support?

Options:

- Minicomputers
- Microcomputers
- Supercomputers
- Mainframe computers

Question Number: 2 Question Id: 9735971163 Question Type: MCQ Option Shuffling: Yes Display Question Number: Yes

Single Line Question Option: No Option Orientation: Vertical

निम्नलिखित में से किसमें आम तौर पर सबसे अधिक प्रोसेसिंग पावर और यूजर सपोर्ट संख्या होती है?

Options:

- मिनी कप्यटर
- माइक्रो कप्युटर

Question Number: 3 Question Id: 9735971164 Question Type: MCQ Option Shuffling: Yes Display Question Number: Yes Single Line Question Option: No Option Orientation: Vertical

Correct: 1 Wrong: 0

In QWERTY keyboards, the key corresponding to 'Q' appears as the:

Options:

- 1. First key of the first line of the alphabetic keys
- Last key of the first line of the alphabetic keys
- First key of the last line of the alphabetic keys
- Last key of the last line of the alphabetic keys

Question Number: 3 Question Id: 9735971164 Question Type: MCQ Option Shuffling: Yes Display Question Number: Yes Single Line Question Option: No Option Orientation: Vertical

Correct: 1 Wrong: 0

क्वटीं (QWERTY) कीबोर्ड में, 'Q' से संबंधित कुंजी इस रूप में दिखती है:

Options:

- वर्णमाला कुंजी की पहली पंक्ति की पहली कुंजी
- वर्णमाला कुंजी की पहली पंक्ति की अंतिम कुंजी
- वर्णमाला कुंजी की अंतिम पंक्ति की पहली कुंजी
- वर्णमाला कुंजी की अंतिम पंक्ति की अंतिम कुंजी

Read the following passage and answer the questions based on it.

It is very important that at least an hour or preferably two hours, immediately preceding bedtime should be spent in peaceful and relaxing activities. When we are excited or involved in physical activity the adrenal gland releases a substance called adrenaline, which helps us to cope with difficult situations. It keeps a person awake.

Adrenaline, once released, cannot be called back. It takes a couple of hours to bring its level down. What it means in practical terms is to avoid books and movies with horror plots or loud and fast music near bedtime. Even long and engaging phone calls should be avoided. Also, avoid taking too much of fluids close to bedtime to avoid the need for getting up in the middle of the night for emptying the bladder. However, a cup of hot milk or herbal tea close to bedtime facilitates sleep. After the drink, brush your teeth, wash your feet, empty the bladder, and settle down with a pleasant book, some soothing music, or a peaceful TV programme. Some people find a warm water bath a helpful bedtime ritual. Among the yogic practices, alternate nostril breathing promotes a particularly peaceful feeling which is a good preparation for falling asleep.

By now you might be cursing me for creating a romantic picture of the hour before bedtime. You might be thinking 'It is easy for him to write all this. What does he know of my life with two telephones ringing and a baby wailing simultaneously near bedtime'? The reason why this rather unrealistic picture has been painted is that unless we know the ideal, we cannot even move towards it. Secondly, if a person has genuine difficulty in falling asleep, he should be prepared to put in some efforts to create conditions conducive to sleep. Finally, for falling asleep, what matters more than any bedtime ritual is probably the combination of hard work and a clear conscience.

नीचे दिये गए पाठ्यांश को पढ़ें और इसके बाद दिए गए प्रश्नों के उत्तर दें।

यह बेहद महत्वपूर्ण है कि सोने से तत्काल पूर्व कम से कम एक घंटा या अच्छा हो कि दो घंटे, शांतिपूर्ण तथा सुखकारी गतिविधियों में टयतीत करना चाहिए। जब हम उत्साहित होते हैं या शारीरिक गतिविधि में टयस्त रहते हैं तो एड्रीनल ग्रंथि एड्रेनालाइन नाम का पदार्थ छोड़ती है जो कठिन स्थितियों से निपटने में हमारी मदद करता है। यह टयक्ति को सचेत बनाए रखता है।

एड्रेनालाइन, एक बार मुक्त होने पर, वापस नहीं हो सकता। इसके स्तर को कम करने में कुछ घंटे लग जाते हैं। टयवहारिक शब्दों में इसका अर्थ है कि सोते समय डरावने कथानक वाली पुस्तकें या मूवी और ऊंची आवाज एवं तेज संगीत से दूर रहें। यहां तक कि लंबे समय की फ़ोन कॉल से भी बचना चाहिए। सोने से पहले ज्यादा मात्रा में तरल पदार्थ लेने से भी परहेज करें जिससे मूत्राश्य खाली करने के लिए मध्य रात्रि में उठने की जरूरत न पड़े। तथापि, सोने से पहले एक कप गर्म दूध या हबर्ल चाय से अच्छी नींद आती है। पीने के बाद, अपने दाँत साफ करें, अपने पैर धोएं, मूत्राश्य खाली करें, और कोई अच्छी पुस्तक पढ़ें, कोई मधुर संगीत सुनें, या शांतिपूर्ण टीवी कार्यक्रम देखें। कुछ लोगों को सोते समय गर्म पानी से स्नान करना अच्छा लगता है। योगिक टयवहार में, एक के बाद दूसरे नथूने से श्वास लेने से एक विशेष प्रकार की शांति के एहसास को बढ़ावा मिलता है जो सोने के लिए उत्तम तैयारी है।

अब तक आप सोने से पहले की रूमानी तस्वीर बनाने के लिए मुझे कोस रहे होंगे। आप सोच रहे होंगे कि 'उसके लिए यह सब लिखना आसान है। सोने के समय बजते हुए दो टेलीफोन और बच्चे के बार-बार चिल्लाहट से भरी मेरी जिंदगी के बारे में उसे क्या पता है'? यह अवास्तविक तस्वीर क्यों बनाई गई है इसका कारण है कि जब तक हमें आदर्श का पता नहीं होगा, तब तक हम इसकी ओर बढ़ नहीं सकते। दूसरी बात, वास्तव में यदि टयक्ति को सोने में तकलीफ होती है, तो उसे सोने की स्थितियां उत्पन्न करने के लिए तैयारी करनी होगी। अंततः, सोने के लिए, सोते समय किए जाने वाले किसी भी किया पढित से ज्यादा महत्वपूर्ण संभवतः कड़ी मेहतन और स्पष्ट विवेक का संयोजन है।

Sub questions Question Number: 53 Question Id: 9735971215 Question Type: MCQ Option Shuffling: Yes Display Question Number: Yes Single Line Question Option: No Option Orientation: Vertical Correct: 1 Wrong: 0 लेखक के अनुसार, सोने से लगभग दो घंटे पहले निम्नलिखित में से कौन सी गतिविधियां करनी चाहिए? **Options: ऊँची आवाज़** में ध्वनि संगीत स्नना। आक्रामक गतिविधिया। डरावनी फिल्म देखना। शांतिपूर्ण और आरामदायक गतिविधियां। Question Number: 54 Question Id: 9735971216 Question Type: MCQ Option Shuffling: Yes Display Question Number: Yes Single Line Question Option: No Option Orientation: Vertical Correct: 1 Wrong: 0 के कारण जारी होता है। **Options:** 1 🛷 उत्तेजना और ज़ोरदार शारीरिक गतिविधियों सुखकारी गतिविधियों एक कप गर्म दूध के सेवन शांतिपूर्ण गतिविधियों

Here is the big question for Andy Rubin who is widely known as the father of Android on the next big thing. The answer in part is that his new company is announcing an entire ecosystem of products that will work together that is an intelligent assistant device for you home, a 360 camera and of course phone. That last one runs Android which is what you would expect from any new phone maker. The company he started to make all this is called Essential. In a blog post explaining why it exists Rubin tells a typical founder story of going out for the night with a friend, talking about the state of technology and how to fix it. Funny thing though is that one of the problems he sees with the state of tech today involves the OS he helped create, Android. He told For all the good Android has done to help bring technology to nearly everyone it has also helped create this weird new world where people are forced to fight with the very technology that was supposed to simplify their lives. Rubin new phone that is the Essential Phone is of course based on that very operating system. But it is probably safe to assume that it will either try to simplify Android somehow or that it is just a stopgap until it's viable for Essential to ship a phone running its other system, Ambient OS. Or maybe both or neither. We do not know yet whether the Essential phone or Ambient OS will mean less fighting with technology or whether Rubin is planning on building more on top of Android or supplanting it. What we can say is Rubin has some core principles for his company that would make the two billion device Android ecosystem a lot better. Here are a few of his points he further stated. First is that Devices are your personal property. He would not force you to have anything on them you do not want to have. Devices should not become outdated every year. They should evolve with you. Those principles all make sense but they have also been damnably hard to live up to in a world where carriers not only hold back updates but also enmesh themselves into the very operating systems of the phones they sell. Even powerhouses like Samsung struggle to ship their phones without carrier software loaded on them. Plenty of Android makers have shipped clean unlocked phones without extra crapware on them and promising prompt updates. Most of them have languished in obscurity. But just because a problem is hard does not mean it is impossible. We will be watching to see how Essential tackles it.
