# Majuli

Majuli is the largest riverine island in the world and is located within the Brahmaputra River in the Indian state of Assam. The river, its tributaries, the wet lands and the chaporis along the island of Majuli make it the largest mid-river delta system in the world.

It is a pollution-free freshwater island. The island was formed due to course changes of the Brahmaputra and its tributaries over a long period.

Majuli had originally a total area of about 1250 km<sup>2</sup> but is now reduced to about 577 km<sup>2</sup> due to continuous erosion caused by the Brahmaputra. With a length from east to west of about 90 km and width from north to south of 16 km, it is a rich natural and cultural heritage site, and its water bodies attract plenty of birds, both local and migratory. Unlike most rivers in India, Brahmaputra is referred to as a 'masculine' river, perhaps due to its awe-inspiring size and flow.

With its origins in the glaciers of Tibet in the Himalayas where it is known as Tsangpo, the river flows south-west through Assam as Brahmaputra, and then through Bangladesh as Jamuna (not to be confused with the Yamuna river, one of the famed trivenis in India). With a total length of over 1800 miles and average depth of 125 feet, it is an important source of irrigation and transportation.

Majuli island is about 200 km east from Assam's capital city, Guwahati, and is accessible by ferries from the town of Jorhat.

Question Label: Comprehension

माजुली विश्व का सबसे बड़ा नदी-द्वीप है जो भारतीय राज्य असम में ब्रहमपुत्र नदी के भीतर स्थित है। यह नदी, इसकी सहायक नदियां, गीली भूमि और माजुली द्वीप के साथ चपोरी इसे दुनिया की सबसे बड़ी मध्य-नदी डेल्टा प्रणाली बनाते हैं।

यह प्रदूषण मुक्त ताजे पानी का द्वीप है। लंबी अवधि के दौरान ब्रहमपुत्र और उसकी सहायक नदियों द्वारा अपने प्रवाह को बदलने के कारण इस द्वीप का निर्माण हुआ है।

मूलरूप से माजुली का कुल क्षेत्रफल 1250 वर्ग किलोमीटर था लेकिन ब्रहमपुत्र द्वारा सतत कटाव के कारण इसका क्षेत्रफल घट कर लगभग 577 वर्ग किलोमीटर रह गया है। पूर्व से पश्चिम की ओर लगभग 90 किलोमीटर की लंबाई और उत्तर से दक्षिण की ओर 16 किलोमीटर की चौड़ाई के साथ यह एक समृद्ध प्राकृतिक और सांस्कृतिक विरासत स्थल है, और इसके जल निकाय देरों स्थानीय और प्रवासी पक्षियों को आकर्षित करते हैं। भारत की अधिकांश नदियों के विपरीत, ब्रहमपुत्र को 'पुरुष' नदी माना जाता है, इसका कारण शायद इसका भयोत्पादक आकार और प्रवाह है।

अपने स्रोत, हिमालय में तिब्बत के ग्लेशियरों में इसे त्संग्पो कहा जाता है। वहाँ से यह नदी दक्षिण-पश्चिम की और असम से होकर बहती है जहाँ इसे ब्रहमपुत्र कहा जाता है, फिर यह जमुना के नाम से बांग्लादेश से होकर बहती है (भारत की प्रसिद्ध त्रिवेणी में से एक यमुना नदी से भ्रमित न हों)। करीब 1800 मील की कुल लंबाई और 125 फीट की औसत गहराई के साथ, यह सिंचाई और परिवहन का महत्वपूर्ण स्रोत है। माजुली द्वीप असम की राजधानी गुवाहाटी से करीब 200 किलोमीटर

पूर्व में है और जहाँ जोरहाट कस्बे से नौका द्वारा पहुँचा जा सकता है।

A word is represented by only one set of numbers as given in any one of the alternatives. The sets of numbers given in the alternatives are represented by two classes of letters as in the two given matrices. The columns and rows of Matrix I are numbered from 0 to 4 and those of Matrix II from 5 to 9. A letter from these matrices can be represented first by its row and then the column number; e.g. N can be represented by 14, 21, etc.; A can be represented by 20, 34, etc. Similarly you have to identify the correct set for the word NEST.

Matrix I 0 1 2 0 A N 0 1 0 N 0 F 3 o å A 0

	5	6	2	8	9
5	8	E	Н	0.	т
6	Н	5	E	Ť	В
7	В	T	S	E	н
8	E	Н	Т	8	S
9	т	5	E	H	В

Matrix II

Healthy lifestyle is the need of the hour. While it came easy to the earlier generations, these days people find it hard to follow the same because of their fast paced life. People are working hard, partying harder and doing everything apart from taking care of their health. Thus, it is time we must take our health seriously. A few healthy habits can help you develop a healthy lifestyle over a period of time. Here are some of the healthy habits that must be followed. Follow a healthy diet plan. Following a healthy diet plan is of utmost importance when you are trying to live a healthy life. Begin by following a healthy diet plan that includes all the essential micronutrients and steer clear from junk food. Wake up early. Most people are unable to indulge in exercise, have breakfast and spend few quality moments with their loved ones in the morning. This is solely because they do not wake up on time. Make it a habit to wake up early in the morning so that you have enough time to accommodate all these tasks. Exercise. Squeeze in at least half an hour each day to indulge in physical exercise of your choice. You can choose to go for a walk, swim, practice yoga, deep breathing or do anything that interests you. This helps in eliminating stress and anxiety. Sleep on time. Since you have to wake up early, it is essential to sleep on time. You must ensure that you take at least seven to eight hours of sleep every day. Put your mobile aside. You should make it a habit to keep your phone aside while you are working to enhance productivity. Also keep your phone at a distance when you are at home and spend quality time with your family. The rays emitted by mobile phones are harmful it is thus suggested to keep it away especially when you sleep at night. Connect with positive minds. It is always good to be friends with people who bring in positivity in your life and stay away from those who indulge in negative talks. Also socialize with those who follow a healthy lifestyle rather than those who regularly indulge in unhealthy habits such as smoking or drinking. Have your meals on time. As important as it is to follow a healthy diet plan, it is equally essential to have your meals on time. Make sure you do not skip your breakfast or any other meal of the day. Have your meals at the right intervals. You must make an effort to deliberately inculcate these healthy habits in your daily routine, in order to attain good physical and mental health.
