Save the Environment – Letter of Mrinalini Sarabhai to her grandchildren

Mrinalini Sarabhai to her grandchildren Revanta and Anahita:

Dearest Revanta and Anahita,

You have both had the wonderful feeling of being loved, cherished and cared for. As you grow older you will begin to realize that the world is made up of different people and emotions, not always the gentleness you have encountered in your childhood.

Already at school, you are learning that violence, greed, jealousy are part of life. These are the enemies that you have to overcome as you grow older. So, every day, begin with a prayer. The one I like to say is, "May the Supreme Being protect us".

Let us work together and play together and above all let us never bear hatred towards anyone.

And when you step out of bed don't forget to remember Mother Earth who nourishes all of us.

When you bathe, think of the blessing of water which comes to you from the mountains, through deep gorges and mighty rivers.

No one can live without water, so be careful with it and do not waste even a drop. Can you imagine even a day without a drop of water to drink? And promise yourself to help clean the waters of our country, so that all people can have clean water.

Think of a country without rain. Which brings us to trees which attract the rain. Never cut down a tree carelessly. Trees make us think of flowers and our joy at the beautiful colours from the humble jasud to the elegant rose. What would we do without the colour of flowers and the green of the trees?

And the thought of trees and flowers bring us to birds and animals.

As you get ready to go to school, you have a breakfast of bread and butter. As you eat the bread think of where it came from. Of the farmer who tilled the soil and planted the wheat, of the sunlight that shone upon the ripening grain, of the task of gathering the sheaves to make it into the loaf you eat.

All our old stories tell us of protecting the environment and how we need to look after the earth. That is why we call her 'Mother.' So be a blessing to the world and bring joy to as many as you can.

With my love, Amma

मृणासिनी साराभाई अपने नाती-पोते रेवता और अनाहिता की. प्रिय रेनंता और अलाहिता,

तेसे ही आप स्कूल लाने के लिए लैंगार हो जाते हैं, आपके पास रोटी और नक्खन का नाध्ता होता है। जैसा ही आप रोटी खाते हैं, लोचे की में जहां से आया है। किसाल जिसमें मिही को दंबा किया और गेहूं लगामा, यह पका हुआ अलाज पर चलकते वाली सूरज की रोधनी, देरों को इकट्टा करने के काम के बाद आप इसे खाने वाले रोटी में बनाते हैं। हमारी सभी पुरानी कहातियां हमें पर्यातरण की रक्षा करने और हमें पूर्मी की देखधान करने की आवश्यकता के बारे में बताती हैं। मही कारण है कि इस उसे 'मां' कहते हैं।

Sardar Vallabhbhai Patel is known as the architect of independent India. Had it not been for his efforts, the various princely states of India would not have come together. Sardar Patel also worked for the welfare of the farmers. In order to pay homage to Patel and honour his contribution to the country, Narendra Modi announced the construction of a huge statue of this great Indian leader. The announcement was made nine years ago when Narendra Modi was the Chief Minister of Gujarat. Statue of Unity dedicated to Sardar Patel is known for its enormous structure and elaborate design. A lot of sweat and hard work went into the making of this structure. A team of artists, historians and architects was selected to further this task. They studied various statues of Sardar Patel set up in different parts of the country. Finally, the design suggested by sculptor, Ram V. Sutar was approved and the work for the construction of this unique statue began. The Statue of Unity is said to be a replica of the statue of Sardar Vallabhbhai Patel installed at Ahmadabad International Airport. It is just that this statue is much larger than that. The total height of the statue is two hundred forty meters and is known as the tallest statue around the globe. In this statue, he is seen wearing a dhoti, his head is held high and there is a shawl on his shoulders. His hands are on his sides and he is wearing a pair of sandals. The height weight and other measures of the statue have been decided in a way that it stands intact amid adverse climatic conditions. This one of a kind statue can withstand wind up to two hundred twenty kilometer per hour. It can also withstand earthquakes up to 6.5 on the Richter scale. The Statue of Unity Movement. A drive to support the construction of the Statue of Unity was initiated by the state government of Gujarat. This was named the Statue of Unity Movement. By way of this movement, the government of Gujarat received immense help from the masses. It urged the farmers and artisans to donate their old and used equipment and people came forward to donate these in vast numbers. Scrap iron amounting to one hundred thirty five metric tonnes was collected with the help of this movement. Statue of Unity is a symbol of unity and strength. It reflects the true personality of Sardar Patel who was strong and robust. The initiative taken by PM Modi has been supported and appreciated by people in power as well as the general public. PM Modi sees this statue as an inspiration for the people of our country.
