Question Number: 1 Question Id: 820051637 Question Type: MCQ Option Shuffling: Yes Display Question Number: Yes Single Line Question Option: No Option Orientation: Vertical

Correct: 1 Wrong: 0

Which of the below options fits the following description?

"It runs on computer hardware and serves as a platform for other software to run."

Options:

- Operating System
- Application System
- 3 * RAM
- 4 # Browser

Question Number: 1 Question Id: 820051637 Question Type: MCQ Option Shuffling: Yes Display Question Number: Yes Single Line Question Option: No Option Orientation: Vertical

Correct: 1 Wrong: 0

निम्न में से कौन सा विकल्प वर्णन के लिए उपयुक्त है?

"यह कंप्यूटर हार्डवेयर पर रन करता है और दूसरे सॉफ्टवेयर को रन करने के लिए प्लेटफॉर्म के रूप में काम करता है" :

Options:

- 1. अऑपरेटिंग सिस्टम
- 🤈 🕷 एप्लिकेशन सिस्टम
- 3 RAM
- 4. 🗱 ब्राउज़र

Question Number : 2 Question Id : 820051638 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct: 1 Wrong: 0

What does Alt+ Tab do?

Options:

- 1 * Save a file
- 2. Move from one window to other
- 3. * Open a new file
- 4. * Refresh the system

Question Number : 2 Question Id : 820051638 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct: 1 Wrong: 0

Alt+Tab क्या करता है?

- 1. * फाइल सेव करता है
- 2 🗸 एक विंडो से दूसरे विंडो पर जाता है
- 3 🗱 एक नई फ़ाइल खोलता है
- 4 * सिस्टम को रिफ्रेश करता है

Question Number: 3 Question Id: 820051639 Question Type: MCQ Option Shuffling: Yes Display Question Number: Yes Single **Line Question Option: No Option Orientation: Vertical**

Correct: 1 Wrong: 0

What does Ctrl+Home do?

Options:

- 1. Takes the cursor to the beginning of the document
- Saves the file
- Opens a document
- 4 * Takes the cursor to the end of the document

Question Number: 3 Question Id: 820051639 Question Type: MCQ Option Shuffling: Yes Display Question Number: Yes Single Line Question Option: No Option Orientation: Vertical

Correct: 1 Wrong: 0

Ctrl+Home क्या करता है?

Options:

- कर्सर को डॉक्यूमेंट की शुरूआत में ले जाता है
- 🗶 फ़ाइल सेव करता है
- एक डॉक्यूमेंट खोलता है
- कर्सर को डॉक्यूमेंट के अंत में ले जाता है

Many cricket enthusiasts consider Ranjit Singh Ji as the father of cricket in India for his contribution in establishing the Indian brand of cricket in the pre-independence era dominated by the English and the Australians. The popularity of an Indian, in an era of colonisation reflected the innovativeness and freshness in his play. Ranjit Singh Ji played most of his cricket in England and went on to be a part of the English test team. He is remembered for some of his fine innings against the touring Australian test sides and consistently emerging as one of the highest scorers for Cambridge University and Sussex, the teams he represented in first class cricket. Apart from this, Ranjit Singh Ji also went on to captain Sussex in the early 1900s, which was very rare under colonial rule. Unorthodox in technique and with fast reactions, he brought a new style to batting and revolutionised the game. Previously, while the batsmen generally pushed forward, Ranjit Singh Ji played most of his shots from the back foot. Ranjit Singh Ji is also attributed to have developed the modern day leg glance or the flick. The country's premier first class test tournament, the Ranji Trophy is named after him. Many of the modern day sub-continent batsmen replicate his style of batting, which involves the use of the wrist to generate power rather than the forearm. While the game has changed considerably over the years, the longevity of Ranjit Singh Ji's style is unquestioned as most modern day cricketers use his invention, 'the flick', as the most reliable and safe shot for scoring runs.

क्रिकेट के कई उत्साही खेल प्रेमी अंग्रेजों और आस्ट्रेलियाइयों के प्रभुत्व वाले पूर्व-स्वाधीनता के युग में क्रिकेट के भारतीय ब्रांड की स्थापना में योगदान देने के लिए रंजीत सिंह को भारतीय क्रिकेट का जनक मानते हैं। औपनिवेशीकरण के युग में एक भारतीय की लोकप्रियता की मुख्य वजह उनके खेल में नवीनता और ताजगी का समावेश था। रंजीत सिंह जी ने अपना अधिकतर क्रिकेट इंग्लैंड में खेला और वे इंग्लिश टेस्ट टीम का हिस्सा बन गए थे। उन्हें दौरा कर रही आस्ट्रेलियन टेस्ट साइड के खिलाफ कुछ बेहतरीन पारियाँ खेलने और फर्स्ट क्लास क्रिकेट में कैम्ब्रिज और ससेक्स टीमों की तरफ से प्रतिनिधित्व करते हुए सबसे अधिक स्कोर करने वाले लगातार उभरते खिलाड़ियों में से एक के रूप में याद किया जाता है। इसके अलावा, रंजीत सिंह जी 1900 के आरंभ में ससेक्स में कैप्टन भी बने जो कि औपनिवेशिक शासन में बह्त दुर्लभ था। अपनी विशिष्ट तकनीक और तेज प्रतिक्रिया के साथ, उन्होंने बल्लेबाजी की एक नई शैली का ईजाद किया और इस खेल में क्रांति ला दी। पहले जहां आम तौर पर बल्लेबाज़ आगे की ओर पुश करते थे, वहीं रंजीत सिंह जी अपने अधिकतर शॉट बैकफ्ट पर खेलते थे। रंजीत सिंह जी को आध्निक समय के लेग ग्लान्स या फ्लिक विकसित करने का भी श्रेय प्राप्त है। देश के प्रमुख फर्स्ट क्लास टूर्नामेंट 'रणजी ट्रॉफी' का नाम उनके नाम पर ही रखा गया है। आधुनिक समय में, इस उप महाद्वीप के कई बल्लेबाज उन्ही की शैली में बल्लेबाजी करते हैं, जिसमें शक्ति पैदा करने के लिए फोरआर्म के बजाय कलाइयों का उपयोग किया जाता है। हालांकि पिछले कुछ वर्षों में इस खेल में काफी बदलाव आए हैं, फिर भी रंजीत सिंह जी की शैली की महत्ता अब भी निर्विवाद है, क्योंकि आधुनिक समय के क्रिकेटर रन बनाने के लिए उनके आविष्कार 'फ्लिक' को सबसे विश्वसनीय और स्रक्षित शॉट मानते हैं।

A young man went to apply for a managerial position in a big company. He passed the initial tests and panel interview, and then had to meet the director for the final interview. The director discovered from his CV that the youth's academic achievements were excellent, so he asked, "Did you obtain any scholarships?" The young man answered "no"."Was it your father who paid for you to go to college?""My father passed away when I was young, it was my mother who paid for my education." he replied. "Where did your mother work?" "She took in washing," replied the young man, blushing at what this important man must think of such menial work. The director asked him to show him his hands. He looked at a pair of hands that were smooth, and strong and perfectly manicured."Have you ever helped your mother wash the clothes before?" he asked."Never, my mother always wanted me to study and read more books. Besides, she can wash clothes much better than me. "The director said, "You seem to be an excellent candidate, but I have a request. When you go home today, go and clean your mother's hands, and then come back and see me tomorrow morning. "The young man felt that his chances of landing the job were very high, and went home feeling jubilant. When he got home, he remembered what the director had said and he fetched a bowl of water, some soap and a flannel and asked his mother to let him wash her hands. His mother felt strange at this request. Happy, but with mixed feelings, she offered her hands to her son. He cleaned his mother's hands slowly, and as he did so tears started to roll down his face. It was the first time he had noticed that his mother's hands were so wrinkled, the knuckles were swollen and gnarled, and there were so many small abrasions and bruises on them. Some abrasions were so painful that his mother winced when he touched them. For the first time he realized that it was this pair of hands that had done laundry for strangers day after day to enable him to go to college and university. The injuries to his mother's hands were the price that his mother had had to pay for his education and his future. After cleaning his mother hands, he quietly washed and ironed all the remaining clothes for her and folded them neatly ready for collection the next day. That night, mother and son talked for a very long time. The next morning, he went back to the director's office. The director noticed the tears that sprang into the young man's eyes, when he asked: "Can you tell me what you learned yesterday when you went home?"The young man answered," I washed my mother's hands, and also finished washing all the remaining clothes. I know now what appreciation is. Without my mother, I would not be who I am today. By helping my mother I now realize how difficult and tough it is to get something done on your own. And I have come to appreciate the importance and value of helping one's family. "The director said, "This is what I am looking for in a manager. I want to employ a person who can appreciate the help of others, a person who knows the sufferings of others to get things done, and a person who does not put money as his only goal in life."
