Read the following passage and answer the questions that follow:

A concern with the environment is imperative for us because we live *from* it; we live *in* it; and we live *with* it. By saying that 'we live from it' is meant that it provides us the means to our livelihood. It is the source of raw materials for productive activities. So much so that we mine its resources, cultivate and harvest its fruits; shape the forms of the land for human habitation, to construct roads and dredge rivers for transport.

'We live *in* it' means that 'the environment is not just a physical necessity for human life and activity; it is where we lead our daily lives. Environment matters to us for social, aesthetic and cultural reasons. It is where our work-a-day life takes place and derives its significance. It is where besides work we spend our leisure: walking, fishing, climbing, swimming, playing etc. Forests, beaches, rivers, seas, mountains -- provides us the backdrop of these recreational activities.

We live with the environment. It existed before our arrival and shall outlast us on earth. It is given to us, we have not created it. We can only respond to it by expressing a feeling of wonder towards it. Any loss of bio-diversity, the disappearance of particular habitats and the extinction of particular species of plant and animal life is mourned for its own sake.

Indian thinkers and sages realise that the cause for environmental degradation is not need but greed. According to them natural desires are satisfied easily; thirst by water, hunger by food. But the desire for possession is an artificial one; it goes on unceasingly and is never fully satisfied. Man's appetite for gold, for example, is never satisfied.

Human beings have imbalanced greedy minds and constantly strive to fulfil their desires by adopting right or wrong means. They forget that 'all things are connected'. The destruction of one leads to the destruction of the others. Therefore, it is imperative to respect traditional wisdom along with modern eco-friendly practices and learn to live in sync with the environment.

Question Numbers: (53 to 57)

Question Label: Comprehension

पर्यावरण के बारे में चिंता करना हमारे लिए आवश्यक है क्योंकि हम इसके दवारा जीते हैं; हम इसमें रहते हैं और हम इसके साथ रहते हैं। 'हम इससे जीते हैं' कहने का तात्पर्य है कि यह हमें, हमारी आजीविका का साधन प्रदान करता है। उत्पादक गतिविधियों के लिए यह कच्चे माल का स्रोत है। इतना कि हम अपने संसाधनों को उत्खनन करें, जुताई करें और इसके फलों को एकत्रित करें; मानव निवास के लिए भूमि के रूपों को ऐसा आकार दें, जिससे कि परिवहन के लिए सड़कों और नदियाँ का निर्माण कर सके। 'हम इसमें रहते हैं' का अर्थ है कि 'पर्यावरण मानव जीवन और गतिविधि के लिए केवल भौतिक आवश्यकता ही नहीं है; यह वह जगह है जहां हम अपने दैनिक जीवन का संचालन करते हैं। पर्यावरण, सामाजिक, सौंदर्यपरक और सांस्कृतिक कारणों से हमारे लिए मायने रखता है। यह वह जगह है जहां हमारा दैनिक कामकाजी जीवन व्यतीत होता है और इसे महत्व प्राप्त होता है। यह वह जगह है जहां पर हम कार्य के अलावा अपना खाली समय बिताते हैं: चलते, मछली पकड़ते, चढ़ाई करते, तैराकी करते, खेलना आदि करते है। वन, समुद्र तट, नदियों, समुद्र, पहाइ - हमें इन मनोरंजक गतिविधियों के लिए पृष्ठभूमि प्रदान करते हैं।

हम पर्यावरण के साथ रहते हैं। यह हमारे आगमन से पहले पृथ्वी पर अस्तित्व में था और हमारे अंत तक रहेंगा। यह हमें दिया गया है, हमने इसे नहीं बनाया है। हम इसके प्रति आश्चर्य की भावना व्यक्त करके इसका जवाब दे सकते हैं। जैव -विविधता को कोई हानि, विशेष प्राकृतिक निवासों का गायब होना और पाँधों तथा पशु जीवन की विशेष प्रजातियों का विलुप्त होना, स्वयं की खातिर शोक व्यक्त किया जाता है।

भारतीय विचारकों और संतों का मानना है कि पर्यावरणीय गिरावट का कारण आवश्यकता नहीं, बल्कि लालच है। उनके अनुसार, प्राकृतिक इच्छाएं, प्यास के लिए पानी, भूख के लिए भोजन आसानी से पूरी हो जाती हैं। परंतु कब्जे की इच्छा कृत्रिम है; यह लगातार चलती जाती है और कभी भी पूरी तरह से संतुष्ट नहीं होती। उदाहरण के लिए, स्वर्ण हेतु मनुष्य की भूख कभी पूरी नहीं होती है।

मनुष्यों ने अपने लालची दिमाग को असंतुलित किया है और सही या गलत साधनों को अपनाकर, अपनी इच्छाओं को पूरा करने का लगातार प्रयास करता रहा है। वे भूल जाते हैं कि 'सभी चीजें एक दूसरे से जुड़ी हुई हैं'। एक वस्तु का विनाश, दूसरों के विनाश की ओर जाता है। इसलिए, आधुनिक पर्यावरण अनुकूल प्रथाओं के साथ- साथ पारंपरिक जान का सम्मान करना और पर्यावरण के साथ समन्वय में रहना सीखना जरूरी है। Question Number: 53 Question Id: 819657810 Question Type: MCQ Option Shuffling: Yes Display Question Number: Yes

In the following question, a word is represented by only one set of numbers as given in any one of the alternatives. The sets of numbers given in the alternatives are represented by two classes of alphabets as in the two given matrices. The columns and rows of Matrix I are numbered from 0 to 4 and those of Matrix II from 5 to 9. A letter from these matrices can be represented first by its row and then the column number e.g. in the matrices for questions 1 to 4, M can be represented by 14, 21, etc; o can be represented by 20, 32, etc. Similarly you have to identify the correct set for the word given below in the question.

Ma	trix I	3				Matrix II						
	0	1	2	3	4		5	6	7	8	9	
0	F	0	M	S	R	5	A	Т	D	I	P	
1	S	R	F	0	M	6	I	P	A	T	D	
2	0	M	S	R	F	7	T	D	I	P	A

Kargil war was an armed conflict between India and Pakistan that took place between May and July 1999 in the Kargil district of Kashmir. In India, the conflict is also referred to as Operation Vijay. Kargil was a military, political and diplomatic victory for India. The Kargil war was fought in 1999 between India and Pakistan in Kargil, Ladakh which was initially Baltistan district, separated by the LOC after the first Kashmir war. It was the first war between India and Pakistan after the one in 1971 which had led to the formation of Bangladesh as a separate country. During the Kargil war Atal Bihari Vajpayee led NDA government was in power. In response of the war India launched Operation Vijay to clear the Kargil sector of infiltration by Pakistani soldiers and Kashmiri militants on the Indian side of the Line of Control. The war took place despite the two nations signing the Shimla Agreement that stated that no armed conflict shall take place on the said boundary. The Pakistani soldiers and terrorists had positioned themselves at higher altitudes, it gave them an advantage in combat, as they could fire down at advancing Indian troops. Pakistan shot down two Indian fighter jets while another fighter jet crashed during the operation. After India started taking over the land captured by Pakistan, Pakistan asked the US to intervene, but then President Bill Clinton declined to do so until Pakistani troops were withdrawn from the Line of Control. As Pakistani troops withdrew, the Indian armed forces attacked the rest of the outposts, managing to get back the last of them by July 26. The Army declared the mission successful on July 26, 1999. Since then the day has been celebrated annually as Vijay Diwas. Safed Sagar, the Indian Air Forces operation, was a major part of the Kargil war. It used air power at the height of 32,000 feet for the first time. From identifying the Pakistani troops and Mujahideens to interdiction, all the actions were performed well by the pilots and engineers despite just one week of training. India lost more than 500 military men on the Kargil territory while reports from Pakistan claimed that more than 3000 of their soldiers, mujahideens and infiltrates died. The war is one of the most recent examples of high altitude warfare in mountainous terrain, which posed significant logistical problems for the combating sides. It is one of the very few instances of direct, conventional warfare between nuclear states. India had conducted its first successful test in 1974. Pakistan, which had been developing its nuclear capability since around the same time, conducted its first known tests in 1998, just two weeks after a second series of tests by India.
