Read the passage given below and answer the questions that follow by marking the most appropriate option out of the four given after each question.

They save scores of lives in Delhi, but they are themselves a vulnerable lot. This is the story of 13 Delhi Government divers who made several deep dives to take out the bodies of two young boys when their boat capsised in Yamuna, near Timarpur, recently.

But even as they fetch out bodies and save lives, these life guards, all of them between 25 and 35 years of age and without any formal swimming training, are forced to dive into the city's toxic waters without body suits or oxygen masks while carrying out these rescue operations.

The recent rescue operation took them more than 12 hours to find the two dead bodies as the boat had capsised at the deepest part of the river, which is close to 50 ft deep, claimed one of the divers.

"We were born on the banks of the Yamuna and we are used to filth and pollution. But when we enter these dirty drains, it leads to skin diseases, respiratory and eye-related problems," confessed a diver. Cases of drowning increase manyfold in the summers. Most people are on holidays and they go to the Yamuna, canals or other water bodies to beat the heat, but without appropriate safety measures, and land in trouble. As there are no boundaries around the Yamuna and the high-flowing Munak canal, it becomes difficult to curb accidents.

These divers claim that fetching a body out of the Yamuna is not as troublesome as fetching one out of Munak canal in Bawana. "The water flows at a very high speed here and the depth is close to 15 ft. We can go as deep as 40-50 ft but in Bawana, due to the speed of water, bodies are washed away and we have to check a larger area," said diver Intezaar.

These lifeguards, however, don't complain much. "It is a mission for us to fetch dead bodies and rescue people. Life is valuable and we feel blessed saving each soul. Our mission is to take out even decaying dead bodies, as it is important for family members and police," said Rayees Ahmed, one of the divers.

वे दिल्ली में अनिगनत लोगों का जीवन बचाते हैं, लेकिन वे स्वयं बहुत खतरे में हैं। यह दिल्ली सरकार के 13 गोताखोरों की कहानी है, जिन्होंने हाल ही में तीमारपुर के पास यमुना में एक नाव डूबने के बाद दो लड़कों के शव को निकालने के लिए गहरे पानी में कई गोते लगाये थे।

डूबे लोगों की लाशबाहर निकालने और डूब रहे लोगों का जीवन बचाने में कामयाब रहने वाले इन लाइफ गार्डस, जिनकी आयु 25 से 35 वर्ष है और बिना किसी तरह के औपचारिक तैराकी प्रशिक्षण को शहर के विषाकत पानी में बचाव अभियान के लिए बिना किसी बॉडी सूट या ऑक्सीजन मास्क के गोता लगाने के लिए मजबूर होना पड़ता है।

हाल ही में एक बचाव अभियान में दो शर्वों को खोजने में उन्हें 12 घंटे से अधिक समय लगे थे क्योंकि नाव नदी के 50 फीट गहरे हिस्से में डूबी थीं, जैसा कि एक गोताखोर ने दावा किया था।

"हम यमुना के तट पर पैदा हुए और हम इसकी गंदगी और प्रदूषण से अच्छी तरह परिचित और अभ्यस्त हैं। लेकिन जब हम इस गंदे पानी में गोता लगाते हैं, तो इससे त्वचा रोग, सांस की बीमारी और आंख से संबंधित समस्याओं का सामना करना पड़ता है," एक गोताखोर नेस्वीकार करते हुए कहा। शीष्मकाल में डूबने के मामले कई गुना बढ़ जाते हैं। अधिकतर लोग छुट्टियों पर होते हैं और वे गर्मी से छुटकारा पाने के लिए यमुना, नहरों या दूसरे जल सोतों की ओर जाते हैं, लेकिन बिना उचित सुरक्षा उपायों और वह भी खतरनाक भूभागों पर। चूंकि यमुना और उच्च स्तर पर बहने वाली मुनक नहर के आसपास कोई बाउंडरी नहीं है, लिहाजा दुर्घटनाओं को रोकना मुश्किल हो जाता है।

इन गोताखोरों का दाबा है कि यमुना से शबों को निकालना बावना में मुनक नहर से किसी को शव को निकालने से अधिक कठिन नहीं हैं। "वहां पानी बहुत तेज गति से बहता है और गहराई लगभग 15 फीट है, वैसे हम 40-50 फीट गहराई में जा सकते हैं, लेकिन बाबाना में, पानी की तेज गति के कारण, शब बह जाते हैं और हमें बड़े क्षेत्र में खोजबीन करनी पड़ती है," गोताखोर इंतजार ने कहा।

ये लाइफगार्डस, हालांकि बहुत ज्यादा शिकायत नहीं करते हैं।
"शवों को निकालना और लोगों का बचाना हमारा मिशन है।
जीवन बहुमूल्य होता है और एक जिंदगी को बचाने पर हमें
अच्छा महसूस होता है। हमारा मिशन सह चुके मृत शरीर को
निकालना भी है, क्योंकि यह परिवार के सदस्यों और पुलिस के
लिए महत्वपूर्ण होता है," रईस अहमद ने कहा, जो एक गोताखोर
