Akbar and Birbal

Emperor Akbar was known for his generosity, good nature and love for the arts. He patronised artists irrespective of their religious background. Akbar wanted to test the artist in Birbal. One day he asked Birbal if he could draw a portrait of the Emperor. Modestly Birbal agreed and drew a reasonably good portrait of Akbar.

Akbar called a few ministers and asked them to review the portrait. The first one saw the picture from various angles and different distances. He took the artist's brush and put a dot at a particular spot.

"Hey, this does not look like the Emperor!" he said.

Another followed suit. He looked at it up and down and majestically put another dot. "Oh, this spot certainly is the one not resembling the Emperor," he declared with authority.

A few other ministers were also waiting for an opportunity to pull Birbal's leg. This was a golden opportunity for each of them. They all put dots here and there.

Emperor Akbar said, "Birbal, how come there are so many dots these people have put on it? But the whole picture looks like me, no doubt!" "Yes, Your Majesty! I have done a reasonable job. Let me see if these persons can draw a neat one without these blemishes, or at least correct the spot they marked. Kindly call them to do this job," Birbal requested. When the ministers heard this, they began excusing themselves. "Oh no! The picture was good anyway, but I meant that it could be improved." "I lost touch with the brush long ago," said another. Each one had some excuse or the other and withdrew from the offer in embarrassment.

अकबर और बीरबल

समाट अकबर अपनी उदारता, अच्छी प्रकृति और कला के प्रति प्यार के लिए जाने जाते थे। उन्होंने धार्मिक पृष्ठभूमि का ध्यान किये बिना कलाकारों को संरक्षित किया। अकबर बीरबल के अंदर के कलाकार का परीक्षण करना चाहते थे। एक दिन उन्होंने बीरबल से पूछा कि क्या वह समाट का चित्र बना सकता है? संकोच से बीरबल सहमत हुए और अकबर का एक ठीकठाक सा चित्र बना दिया।

अकबर ने अपने कुछ मंत्रियों को बुलाया और उन्हें चित्र की समीक्षा करने के लिए कहा। पहले ट्यक्ति ने विभिन्न कोणों और विभिन्न दूरी से तस्वीर देखी। उन्होंने कलाकार से ब्रश को लिया और एक विशेष स्थान पर एक बिंदु डाला।

"अरे, यह समाट की तरह नहीं दिखता है!" उसने कहा। दूसरे ने भी ऐसा ही किया। उसने चित्र को ऊपर और नीचे देखा और शानदार रूप से एक और बिंदु डाला। "ओह, यह जगह निश्चित रूप से समाट जैसी नहीं है," उसने घोषित किया।

कुछ अन्य मंत्री भी बीरबल को नीचा दिखाने का अवसर तलाश रहे थे। यह उनमें से प्रत्येक के लिए एक सुनहरा अवसर था। उन सभी ने यहां-वहां बिंदु डाल दिए।

समाट अकबर ने कहा, "बीरबल, इन लोगों ने इतने सारे बिंदु कैसे लगाए हैं? पूरी तस्वीर तो मेरे जैसा ही दिखती है, इसमें कोई संदेह नहीं है!"

"बिलकुल, मेरे आका! मैंने ठीकठाक काम किया है। मुझे देखने दें कि क्या ये लोग इन दोषों के बिना एक साफ-सुथरा चित्र बना सकते हैं, या कम से कम उस स्थान को सही कर सकते हैं जिसे उन्होंने चिहिनत किया है। कृपया उन्हें यह काम करने के लिए बुलाएं," बीरबल ने अनुरोध किया।

जब मंत्रियों ने यह सुना, तो उन्होंने बहाना बनाना शुरू कर दिया। "अरे नहीं! तस्वीर वैसे भी अच्छी थी, लेकिन मेरा मतलब था कि इसे बेहतर किया जा सकता है।"

एक और ने कहा, "मैंने तो बहुत पहले ब्रश छोड़ दिया था।" प्रत्येक के पास कुछ ना कुछ बहाना था और वे शर्मिंदगी में प्रस्ताव से हट गए। Question Number: 53 Question Id: 2012981146 Question Type: MCQ Option Shuffling: Yes Display Question Number: Yes Single Line Question Option: No Option Orientation: Vertical

Given below are two statements labelled as Assertion (A) and Reason (R).

Mark your answer as per the codes provided below:

Assertion (A): Graben is a major relief feature resulting from the faulting activities. It is, in fact, a valley or narrow trough bounded by one more parallel faults.

Reason (R): Block of the earth's crust may be relatively raised or lowered between more or less parallel faults. The lower part known as graben is formed due to the subsidence of middle part between two normal faults.

Options:

- Both A and R are individually true and R is the correct explanation of A.
- Both A and R are individually true but R is not the correct explanation of A.
- A is true but R is false.
- A is false but R is true.

The power of concentration manifests as focused attention and as a one pointed mind. When you focus your mind on something, you conserve your energies and do not dissipate them on irrelevant thoughts. This is why, developing concentration is vital for anyone, who is aspiring to be more efficient in life. Without it, your efforts get cattered, but with it, you can accomplish great things. Concentration has many uses and benefits. It assists in studying, enables faster comprehension, improves the memory and helps in focusing on a task. Therefore, it can be rightly referred to as a powerful tool that helps you use creative visualization and develop psychic powers. When this ability is strong, the mind obeys you more readily and does not engage in futile or negative thoughts. This ability plays an important role in meditation, gaining mental mastery, and attaining peace of mind. A person, who does not concentrate or meditate often, finds himself irritated, restless and annoyed. Such a person is often found to be occupied with restless thoughts claim his attention constantly, thereby wasting his time and energy on useless matters. These thoughts actually rule their life. They become so used to such conditions that they regard it as natural. However, it is one of the most dangerous situations that a human being can encounter in his life. So, develop this power. You only need to train and exercise it. Forget all your excuses about not having the time or being too busy. Do not say that the circumstances are not appropriate, or that you cannot find a quiet place to exercise. With a little planning, desire and motivation, you can always find the time to exercise each day, no matter how busy you are. Just make sure that you do not inner resistance to concentration. For example, telling a child often, that he or she is not concentrating well enough, creates a subconscious aversion to concentration and study. These become associated with coercion, lack of freedom, and doing something they do not like to do. Hence, when children grow up, it is no wonder that their power of concentration is too weak. One needs to understand that concentration can be a real fun, if approached in the right way. It should be practiced with joy, positive attitude, optimism, and understanding of its great possibilities. Once you understand the importance and benefits of developing the power of concentration, you will certainly grow as a mature human being. Some of the major benefits include, complete control on your thoughts, ability to focus your mind, freedom from futile and annoying thoughts, better memory, peace of mind, improved self-confidence, inner strength, inner happiness, more powerful and efficient use of creative visualization, deeper and more successful meditation.

Trekking and mountain climbing had always fascinated me. However, I did not know it was so amazing until I finally experienced it. I went for the Deoriatal to Chandrashila peak trek with two of my close friends and a group of complete strangers whom we soon befriended. Chandrashila peak trek is considered ideal for the beginners. The travel group that had arranged for this sport had given us prior information about the kind of weather and atmosphere we should expect, the kind of clothes to carry and other equipment that should form a part of our travel bags. We were extremely excited about experiencing this new adventure sport and packed. all the stuff carefully. We reached the Sari village from our hometown, Haridwar. It took around ten hours to reach this village that was our base camp. We spent a night there and started our mountaineering experience early the next morning. Before starting with this adventure sport, we were explained about its nitty gritty. Our trek leader and his team were quite experienced. Our trek leader led us, while one of his team members moved in the middle and the other at the end of our group to ensure proper guidance and security. We were given trekking poles and taught how to use them. We began trekking from Sari to Deoriatal. The way was difficult and we would have slipped off and on had it not been for the trekking poles. The view on the way was amazing. We saw a variety of colourful birds flying freely in the sky. We also had an amazing view of the Kedarnath range. We reached Deoriatal in around four hours and stayed there for the day. The next morning we trekked from Deoriatal to Rohini Bugyal. It was a windy day and thus it became very chilly. We trekked through the forests and witnessed lush greenery all around. It was an eight km long trek. It was the month of December and the trek was all covered with snow. We were all tired on reaching Rohini Bugyal. We had our lunch, took some rest and roamed around to view the scenic beauty. On the third day we trekked from Rohini Bugyal to Chopta. It was a six km long trek covered with dry leaves and snow. We saw a beautiful waterfall on the way and sat by its side for some time. On day four, we trekked from Chopta to Tungnath to Chandrashila. and back. This was the most challenging route. The trek from Tungnath to Chandrashila was especially very steep and scary. We stood on the Chandrashila peak for a while to see the picturesque view and clicked several pictures. It was pure bliss and a great experience.
